

Validation Report

"Tanso Check(Ver1.1)" of Tanso-man GX Co., Ltd.

Mr. Junji Fukumoto
CEO
Tanso-man GX Co., Ltd.

1. Validation Target

We, SOCOTEC Certification Japan (hereafter "SOCOTEC"), have performed the validation in response to the request from Tanso-man GX Co., Ltd. (hereafter "the Company") in order to provide an opinion as to whether GHG emissions within the accounting scope designated by the accounting system users are properly designed to be accounted and outputted in accordance with GHG Protocol "GHG PROTOCOL Corporate Accounting and Reporting Standard", "GHG PROTOCOL Corporate Value Chain(Scope 3)Accounting and Reporting Standard" (The above 3 points are "the judgment criteria".) for "Tanso Check(Ver.1.1)" which is designed and developed by the Company.

The purpose of the validation is to objectively assess the validity of the design of "Tanso Check(Ver.1.1)" from an independent standpoint based on the judgment criteria, and to provide an opinion as a third party.

2. Validation Summary

SOCOTEC has performed the validation based on the procedures of SOCOTEC that reference to "JIS Q 14064-3:2023 (ISO 14064-3:2019) Specification with guidance for the verification and validation of greenhouse gas statements" requirements. The scope of validation covers "Tanso Check(Ver.1.1)". "Limited assurance" was applied for the level of assurance in the procedures.

In the validation procedures at the headquarters of the Company, we have asked the developers questions, checked the related materials, reviewed the evidence in the design and development process, and tested recalculations, regarding the method of setting the accounting boundaries by the accounting system users while accounting "Tanso Check(Ver.1.1)", the selection and input method of the data to be inputted, the calculation methodology, the factors applied to the calculation, the calculation process, and the display of GHG emissions.

3. Our Conclusion

We were not aware of any instances where "Tanso Check(Ver.1.1)", which is designed and developed by the Company, was not appropriately designed by the judgment criteria.

< Valid period for validation: 1 August 2025 - 31 July 2026 >

4. Points to Note

The Company assumes responsibility for "Tanso Check(Ver.1.1)", whereas the responsibility for this validation rests with SOCOTEC. There are no specific interests between the Company and SOCOTEC.
