

Validation Report on the Methodology for Calculating Carbon Footprint Reduction of Mitsui Designtec Co., Ltd.

Mr. Yusuke Muramoto
President and Representative Director
Mitsui Designtec Co., Ltd.

1. Validation Target

On the basis of a methodology for calculating carbon footprint reduction, "the Methodology for Calculating the Carbon Footprint Reduction of Custom-made Furniture Ver. 1.0" established by Mitsui Designtec Co., Ltd. (hereafter the "Company"), we, SOCOTEC Certification Japan (hereafter "SOCOTEC"), have performed the validation in order to provide an opinion as to whether carbon footprint reduction of custom-made furniture is appropriately calculated and operated.

The purpose of the validation is to objectively assess the validity of "the Methodology for Calculating the Carbon Footprint Reduction of Custom-made Furniture Ver. 1.0" and to provide an opinion as a third party.

2. Validation Summary

SOCOTEC has performed the validation based on the procedures of SOCOTEC that reference to "JIS Q 14064-3:2023 (ISO 14064-3:2019) Specification with guidance for the verification and validation of greenhouse gas statements" requirements. The scope of the validation covers "the Methodology for Calculating the Carbon Footprint Reduction of Custom-made Furniture Ver. 1.0".

The level of assurance applied to the procedures is "limited assurance".

In the validation procedures, we have reviewed the calculation boundaries and the calculation structure of custom-made furniture carbon footprint reduction in "the Methodology for Calculating the Carbon Footprint Reduction of Custom-made Furniture Ver. 1.0" at the Company, and have confirmed whether the custom-made furniture carbon footprint reduction is appropriately calculated and operated in accordance with "the Methodology for Calculating the Carbon Footprint Reduction of Custom-made Furniture Ver. 1.0".

3. Our Conclusion

On the basis of "the Methodology for Calculating the Carbon Footprint Reduction of Custom-made Furniture Ver. 1.0" established by the Company, we are not aware of any instances where the custom-made furniture carbon footprint reduction was not appropriately calculated and operated.

4. Points to Note

The Company assumes responsibility for "the Methodology for Calculating the Carbon Footprint Reduction of Custom-made Furniture Ver. 1.0", whereas the responsibility for this validation rests with SOCOTEC.

There are no specific interests between the Company and SOCOTEC.
